2. Transaction Summary

Transaction ID	**TEST-STR-001**
Date / Time	Not provided
Channel	Not provided
Amount	Not provided
Currency	Not provided
Geolocation	Not provided
Device Fingerprint	Not provided
Merchant	Not provided
Merchant Category	Not provided
Beneficiary	Not provided

3. Risk Assessment

Component	**Sub-score**	**Weight**
Adaptive Friction	100.0	45%
Fund Flow	100.0	35%
Phishing	0.0	20%

Consolidated Risk Score	**80.0**
Risk Level	**High**

4. Recommended Actions

• Immediate hold of the transaction

• Customer outreach for verification

• Analyst investigation

• Generate a draft STR

• Escalate to Admin for final sign-off

5. Risk Explanation

Summary: AF1 - Device fingerprint change = 1. The current device fingerprint differs from the stored profile, which contributes to transaction risk. AF2 - Distance risk factor = 1.0000. The transaction distance is significantly high and contributes to risk. AF3 - Amount risk factor = 1.0000. The transaction amount is significantly higher than the historical average and contributes to risk. FF2 - Remaining balance factor = 1.0000. A large portion of funds has been transferred out, leaving a low retained balance. FF3 - Holding-time risk factor = 1.0000. Funds were held for a relatively short period, which contributes to risk.
